BUSINESS

ACT LIKE A BIG BUSINESS, AT A FRACTION OF THE COST.

A high quality, flexible IP Telephony solution for a low cost. Get the right business telephone system designed to help your business grow.

HOW IP PHONE PREMIER WILL HELP YOUR BUSINESS GROW:

Stay connected wherever you work.

Because you're not always in the office when that important call comes, IP Phone Premier allows you to set up call routing between groups of fixed lines or mobiles. With sequential call routing and simultaneous ring included, you will never miss an important call. Ask us to show you how this works.

Support at your fingertips.

We've got your business covered with our remote or onsite support service. Your Business Technical Support team is just a phone call away.

The flexibility to expand.

With multiple phone lines coming through one access point, there's no need for costly line installations when you want to expand. Simply call us and we can do it all for you over the phone, it's that simple.

Terms & Conditions: ~Your IP Phone Premier service requires an Optus Broadband connection. Optus will connect you to Optus Broadband DSL Direct 2GB for \$0. You must stay connected to the Optus DSL Direct service for the duration of your IP Phone Premier plan. If you transfer your phone number to another carrier or cancel your Optus IP Phone Premier service then your Optus Business DSL Direct service will also be cancelled, unless you acquire the Optus Local Access Direct service on a 24-month agreement. If your Optus IP Phone Premier service is cancelled within the first 24-month agreement period, a cancellation fee of \$149 per access line pro rata according to the number of months remaining of your minimum term. *The Optus Local and Long Distance Fair Go™ policy applies. See optus.com.au/standardagreement for full terms and conditions. Excludes premium and 13/1300 calls. *Unused data allowance is forfeited each month. If you exceed your plan's data limit, no excess usage will be charged. After your data allowance is reached you will be speed limited (and cannot be removed) to 128Kbps until the end of your billing month. Usage is a combined total of all uploads and downloads. Actual speeds may vary as many factors affect speed such as distance from the telephone exchange, your line condition, your hardware and software, the source of your download and general internet traffic. Offer is available to credit-approved, eligible small and medium business customers, as defined by Optus, who connect a minimum of two Optus IP Phone Premier services on a 24 or 36-month contract and connect and remain connected to an Optus Business DSL Direct service using the required equipment supplied by Optus. Optus will install the required equipment at no additional charge. Additional charges may apply for a non-standard installation or connection of the IP Phone Premier service to your PABX. The Optus IP Phone Premier service is available in metropolitan and many regional areas of NSW, ACT, VIC, QLD, SA and WA. It is not available in TAS or NT. For technical and commercial reasons, not all businesses can be connected to the IP Phone Premier service. You must connect to a minimum of 2 Optus IP Phone Premier services and up to a maximum of 6 services. One Optus Business DSL Direct service will support the use of a maximum of 6 simultaneous Optus IP Phone Premier services. Attempting to make 7 or more simultaneous IP Phone Premier calls over a single Optus Business DSL Direct service could degrade the quality of all 7 calls. In the event of a power failure, you will not be able to use your Optus IP Phone Premier service to make or receive calls, including, for example, to emergency services. It is recommended that you purchase an uninterruptible power supply (battery backup) if you are relying on your Optus IP Phone Premier service to make emergency phone calls. TTY services cannot be used with the Optus IP Phone Premier service. Customers who wish to use their existing telephone number with the Optus IP Phone Premier service must complete a Porting Authority Form which contains the information that we send to Telstra to request that the number be ported to Optus. There are a number of limits as to what can be ported on The Optus Network. Not all features and services are able to be transferred with your local call service. Your current service provider is responsible for providing service and fault assistance until the service is transferred to Optus. Once transferred, any previous contractual rights, discounts etc with your previous service provider maybe forfeited. A \$2.20 monthly fee may apply if your account is not paid by direct debit. Information correct as at 6 June 2011. SingTel Optus Pty Limited ABN 90 052 833 208.
