

NOVA by Theatrelight

An ideal lighting desk for theatres - schools - clubs - television - exhibitions - promotions

The Theatrelight Nova is a versatile and easy to use lighting controller, particularly suitable for smaller shows. The Nova can be used as a simple dual-preset desk and can also record memory scenes and chases with timed dipless crossfading. The sound-to-light capabilities using the built-in mic make this desk a real party piece. The Nova's control output is standard USITT DMX512-1990 for easy integration with your existing equipment. The simple recording operation and instruction summary on the front panel, combined with a comprehensive plain english User's Manual, make this one of the easiest memory preset desks on the market. A perfect lighting board for theatres, schools, clubs and entertainment events.

COMET 6 by Theatrelight

**Ideal for
DISCOS - CLUBS - THEATRES - SCHOOLS
SHOP WINDOWS - EXHIBITION LIGHTING - PARTIES**

THEATRELIGHT

Bringing the power of digital dimming into an affordable range, the Theatrelight Comet 6 offers unparalleled features in a package which is simple and easy to use. The unit combines several functions - both dimmer levels and chases may be controlled remotely by DMX-512 or RS485, and the unit can also work as a stand-alone chaser with sound to light operation. Applications include theatre, disco, schools, party lighting, exterior and interior building light, window displays and exhibitions requiring powerful dimming control.

Features :-

- * DMX-512 or 9600 baud, RS 485 control
- * Remote or stand-alone chase operation
- * Remote or stand-alone sound to light
- * Sound dependant options include chase speed, direction, pattern and fade profile
- * Snap or fading chases
- * Dim or switch mode on all dimmers
- * Individual circuit test switches
- * All operation instructions on front panel
- * Instant or soft-start dimmer on time
- * Warm and max level set on all dimmer

SCENEMASTER by Theatrelight

The Scenemaster 3 has been designed to bring the cost of effective micro-processor controlled stage lighting into an affordable range.

Versatile, reliable and easy to use, it is ideally suited to the lighting of both large and small venues. With 4 pages of Scenemaster, multiple chase speeds and the ability to record a full show under a Scenemaster for single button operation, your creativity is virtually unlimited.

Special features such as the ability to read chase speeds in either steps per second or beats per minute make it flexible enough for both Theatre and Rock n Roll lighting.

Available in 12/24 or 24/28 models, large memory capacity or over 500 scenes with 5 year memory retention, record and erase protection codes, single button show operation and much more...whatever your needs, the SCENEMASTER 3 is the lighting controller to enhance your performance.

**"I WANT TO SUCK
YOUR BLOOD...."**

We at Ashton Admor have a fabulous range of Mehron simulated blood products. They are so easy to use and they simply wash off with soap and water. We have everything from viscous, life like stage blood, dark blood now available in a venous colour, coagulated blood gel which truly stays in place, digestable blood capsules and squirt blood which is a water based blood great for gushing and squirting effects.

The kids will think you are a super star when you produce this life like blood and it will keep them amused for hours!

Makeup is Fun!

“WE ARE THE PORTABLE PA SPECIALISTS”

Mipro MA707 Portable PA System : \$1090

This powerful 70 watt RMS system is the ultimate portable wireless PA system and provides excellent music reproduction from CD player to cassette recorder as well as quality intelligible speech. It is a compact yet powerful package suitable for any indoor or outdoor application such as school assemblies, church services, sporting events, conferences and much more. It is the most advanced and versatile portable wireless amplifier on the market today. The MA707 weighs less than 14kg, has built in wheels and retractable handle, 8 hours battery life from built-in rechargeable batteries, two cord mic inputs and loads more! Ring today and ask our friendly staff to come and give you a demonstration.

Chiayo—Challenger 1000 : \$850

The Challenger is an all in one multi functional wireless portable sound system designed for both indoor and outdoor use. It is compact and light so it is easy to take with you

anywhere you desire. It has a 24V power supply from 2 pieces of heavy duty rechargeable batteries, 10” full range speaker with high frequency tweeter, individual power switch for CD player/cassette recorder, separate volume controls for wireless and wired microphones, amplifier with on board EQ with voice priority override, retractable handle and wheels and a modular compartment that accepts up to 2 channels of UHF receiver modules. This system is ideal for schools, churches, conferences, drama classes...the list is endless!

Samson—Expedition Express : \$2050

The Samson Expedition takes the guesswork out of public presentations. Everything you need is in one package : a pair of acoustically balanced two-way loud speakers, a 4 channel built-in mixer with DSP, a powerful 250 watt amplifier, Samson microphone and all the cables. Best of all, you don’t have to be an engineer to hook it all up. Sets up (and packs up) in less than 5 minutes. Not only is it easy to use, it has 250 watts of power and professional grade electronics so it sounds great! The Expedition is designed not just for public speaking, but for live and recorded music too. You can roll the cabinet anywhere you want which makes it ideal for classrooms, boardrooms and any other small or large space. So if you are looking for an easy-to-use portable PA, look no further than the Expedition Express... it is your ticket to great live sound!

Econocom Talkbalk

Affordable 2 to 10 Station Intercom Systems

If you want **PERFORMANCE, DURABILITY, VALUE AND COMPATIBILITY**...look no further!

Econocom Systems represent the industry's very best value in a small production intercom system.

They are foolproof and easy to use and cant be incorrectly hooked up when using standard microphone cables.

The ribbed, extruded aluminum cases, polypropylene end bezels, internal support system for the PC boards and best quality XLR connectors all contribute to the outstanding ability of the Beltpacks and System Interface to withstand rough usage.

An Econocom system consists of these two things :

1). A table-top (AD2410) AC adaptor with removable IEC power cord and a cable with connector which connects the AD2410 to the PS-4 interface box...

2). A PS-4 system interface.

These two devices, taken together, are the systems power supply. Also included are two to four of our standard full featured belt packs, and a headset with connector for each belt pack.

These extremely rugged and comfortable headsets are custom manufactured from the finest materials available to Econocoms high design standards. Many customers have found the PS-4 and AD2410 combination to be an extremely cost effective and a highly flexible method of powering small portable and rental intercom systems.

Switch Microphones

Convenient & versatile, the Samson R11 gives you enough output and reliable performance for any kind of application along with great sound, low noise and convenient features like an easily accessible on/off switch

The Samson R21 features a tight Cardioid pickup pattern for maximum gain before feedback, a Dual Stage Windscreen, heavy gauge mesh and anti-dent ring for enhanced protection and gold plated XLR pins assuring positive connectivity.

Look at these features in the Peavey PVi Cardioid microphone : high quality/cost effective, on/off switch, clean/natural sound, Cardioid unidirectional polar response, low pop and handling noise, rugged/die cast steel case, XLR cable incl.

Designed for the performer who prefers a careful balance of highs, midrange and bass, the Electro-voice Cobalt Co5, with on/off switch, offers exceptional vocal intelligibility with controlled proximity effect. With the Co5 you get clarity and grit...when you want it!

The CAD 25A is a dynamic supercardioid microphone designed with the qualities required by the professional, yet highly affordable for the price conscious. With accurate natural sound, a warm bass-boost and the additional "punch" needed in sound reinforcement, this is the mic for you!

Radio Microphones

The Samson UHF Synth 32 features groundbreaking wireless technology with the Synth 32 providing 32 selectable UHF frequencies in both the receiver and transmitter. It has a large front panel LCD display and also includes built in noise squelch circuitry.

Samson designed the UHF Series One to give everyone the highest level of wireless performance at an affordable price. Fully professional, the receiver features a True Diversity design with two independent receivers, Surface Acoustic Wave technology and built in tuned, moulded antennas for the most stable RF reception possible.

The MR801 by Mipro is an affordable UHF wireless microphone system suitable for installations and portable applications. The receiver is housed in a durable 1/2 rack chassis which can be self standing or rack mounted via an optional single or dual rack mount kit. The MR801 features wideband 56kHz deviation for the ultimate in audio quality.

Loudhailers

If it is loudhailers you are looking for, give us a call to accommodate your needs. We can provide you with a selection of loudhailers from the LH16 which has a powerful 16 watt output, built in siren, handy shoulder straps and only requires 6

x C batteries. We also have the LH-25 which has an impressive 25 watt output, a range of 0.5 to 1 km (depending on operating conditions), shoulder strap with hand held mouth-piece, only requires 8 x C batteries and weighs only 1.65 kg. Both of these loudhailers are perfect for sporting events, outdoor assemblies, crowd control and much more.

Move Over John Travolta...

...with our disco lights and smoke machines, you can create the Saturday Night Fever atmosphere at your own venue. We have a range of disco lighting effects available so why don't you

Makeup News Flash

Welcome to our New

Face &

Paradise Makeup AQ is a colour saturated, water soluble, semi-soft, moist cake makeup available in 18 beautiful colours. These 18 colours are the most widely used shades in the art of face and body painting. Use with water and apply directly to the skin or over a base of traditional pressed powder cake or liquid makeup, using a brush or sponge.

Mehron's unique blend of ingredients include aloe and chamomile to help make Paradise Makeup AQ safe and gentle to the skin. Glycerin, avocado oil and cocoa butter provide rich, vibrant, colour-saturated coverage. The vibrant colours will dry quickly with minimal rub-off. It washes off easily, there are no special removers needed and your brushes and sponges will also clean easier and last longer.

To compliment this wonderful product, Mehron has also introduced Detailz. This is a decorative liquid face and body makeup designed specifically for creating very fine lines, intricate designs, outlines, perfectly round dots and tiny spots. Detailz has a unique ultra-fine point applicator that permits the artist to precisely draw on the skin. Detailz comes in six colours. For more information please contact us.
