

Performance Makeup for *Students of Makeup Artistry*

*I*n the early 1950's Mehron Melik was the first to recognize the need for personal student makeup kits at an affordable price. In the fourth edition of *Stage Makeup*, the celebrated makeup artist and author Richard Corson describes Mehron's Student Kit as "the best available student kit"*.

Over forty years later, Mehron's "Mini-Pro" Student Makeup Kit remains the standard for personal and affordable makeup kits.

Today, Mehron's "All-Pro" and "Celebre Professional" Makeup kits provide a complete makeup program for students of the performing arts. Specially selected base colors, rouges, shadows, highlights and accessories meet classroom requirements in straight, corrective, and special effects training.

Mehron's Makeup Kits provide students of the performing arts the opportunity to learn with the same products used by professional performers throughout the world.

Mini-Pro™ Student Makeup Kit featuring CreamBlend™
